

City of Flagstaff Re-Entry Plan

The City's Re-Entry Plan (Plan) is broken out into four phases. Each phase will be implemented incrementally, dependent upon circumstances and benchmarks as indicated. The Plan contains the following documents:

- General Guidance
- Monitoring Criteria
- CDC Guidelines
- Employee Safety Protocol and Resources
- Workplace Safety Checklist
- Exposure Procedures for Employees
- Specific City Facility Plans

Any questions about this plan or COVID-19 related concerns should be directed to the Public Affairs Team at covidquestions@flagstaffaz.gov.

General Guidance

During Phase One, Phase Two, and Phase Three of this Plan, the CDC Guidelines, Employee Safety Protocol, Exposure Procedures for Employees, and Workplace Safety Checklist, as set forth below, shall apply. This Plan shall not apply to the Municipal Court operations, which will follow Administrative Orders as directed.

Phase One

City facilities will remain closed to in-person business with the continued effort to address customer service needs remotely. For business that needs to be done in person with the public, this will be done on an appointment basis adhering to CDC guidelines (see below).

Outdoor sport court amenities, park amenities and ramadas will be closed for public use. Playing fields located within City parks will remain open for public use, except in those cases when a special permit is required for use.

Essential services will be performed in-person and on-site as needed. These will include, by way of example, emergency services (police and fire), public works (facilities, streets, solid waste), utilities (water, wastewater), and building inspection.

Operations within the City organization will function remotely where possible. Staff meetings and meetings with the public will be conducted with utilization of remote meetings and remote correspondence. Human interaction will be minimized, with adherence to CDC guidelines and Employee Safety Protocol.

Special events and other permits for activities on City property will be limited and/or modified to minimize gatherings to 10 people or less. Special event permits on City property for gatherings of more than 10 people will be postponed.

City Council meetings may be reduced in number, and when scheduled, will be performed remotely. Recognitions and Proclamations may be deferred, and agenda items will focus upon time-sensitive matters. City Council meetings may be reduced in frequency and duration.

Intergovernmental meetings necessary to address COVID-19 response and information sharing will be performed remotely. Other intergovernmental meetings and community meetings may be suspended. Board and Commission meetings may be suspended, and when scheduled, will be performed remotely.

Travel for employees and City Officials will be suspended. City celebratory functions, events, and group gatherings will be suspended or held remotely using a virtual meeting platform.

Phase Two

Except as otherwise provided below, all restrictions in Phase One will still apply.

Outdoor sport court amenities will reopen, including tennis courts, skate parks, BMX park, dog parks, outdoor courts, play structures, swing sets, water fountains, and restrooms. Outdoor park amenities will include signage reminding visitors of the need to social distance and follow CDC guidelines, and to identify that usage is at the risk of each user. The park ramadas will remain closed at this time given the tendency to draw crowds. Jay Lively Ice Arena will remain open to adult skate and private groups up to 50 people and additional amenities such as locker rooms or bleachers will be open appropriately to allow for physical distancing. See Tier 2 of the Site Specific Plans to see more details on availability of additional amenities.

Field use permits will be evaluated with return to play guidelines for groups up to 100 people. The City of Flagstaff may also begin Athletic programs as specific in Tier 1 of the Site Specific Plan.

The City Visitor's Center will open on a limited basis taking into consideration the visiting public's needs. The Visitor's Center will include COVID mitigation efforts such as additional cleaning measures, protective guards and markings, and single entry and exits.

Staffing required to provide service and maintenance to the limited openings referenced above will be scheduled. The return of some furloughed employees may be considered to support these services.

Custodial and sanitation services will be enhanced with respect to these limited openings. The temporary installation of additional public restrooms may be considered for strategic locations in the downtown area.

Special Event Permits on City property will be authorized based on a capacity calculator to determine the appropriate size of event considering the type of event, set-up, organization and attendees. Event organizers demonstrate measures to provide for the health, safety, and welfare of the public by providing for COVID mitigation efforts. City staff will work with event organizers to determine if suggested mitigation efforts are appropriate.

Temporary Use Permits on private property will be conditioned on an event's ability to follow the City's code requirements and address public health, safety and welfare.

Travel for employees and City Officials will be suspended. Any work-related travel needed for critical infrastructure may be exempt from these restrictions. Employees should work through their Division Director to determine if travel is required during this Phase of the Re-Entry Plan.

Phase Three

Except as otherwise provided below, all restrictions in Phase One and Phase Two will still apply.

Upon the Mayor's directive and following the monitoring guidelines as set forth below, Phase Three will be implemented. Most City facilities will open to public entry and begin limited public services. Hours of operation may be curtailed and building capacities for visitors and users may be limited.

Lobbies and public areas will incorporate queuing mechanisms with tape, signage and ground markings. Common seating areas will be closed to personnel and visitors to discourage congregating and interaction. Secured doors and accesses will remain closed.

Sanitizing liquids and/or wipes will be provided throughout City facilities and increased cleanings and sanitation will be performed. When possible, protective shields will be installed at customer service counters.

Some staff occupation of City facilities will occur, with emphasis being placed upon continued working from home by those who are able to perform their job duties remotely. Because each division's business needs and physical spaces are different, the number of employees transitioning back to in-office work, which may include alternative work schedules, will be determined on a division-by-division basis. The City will notify employees when to return to work and will attempt to provide at least two weeks advance notice. Employees who are concerned about returning to work should work with their Supervisor and Human Resources.

Indoor City recreational facilities, including the Aquaplex, recreation centers, and gyms, may continue to be closed. Please see the site specific plans coming soon for the phased re-entry of these facilities.

City Council meetings will occur weekly and will continue be performed remotely. Recognitions and Proclamations may be scheduled pursuant to guidance from the Mayor; agenda items and presentations will be regular in scope and consistent with the Working Calendar.

Intergovernmental meetings will continue to occur remotely. Board and Commission meetings will occur on a regular basis and be performed remotely.

Travel for employees and City Officials will avoid those jurisdictions that still have a moderate or significant transmission of COVID-19. Any work-related travel needed for critical infrastructure is exempt from these restrictions.

The public will be required to wear masks when entering City facilities per Section 10 Face Coverings of the Mayor's March 15th Proclamation. Meetings with public customers will continue to be performed remotely when applicable and in-person meetings will be minimized. City staff should remind the customer of the face coverings requirement when scheduling the meeting. If the customer does not have a mask, a mask may be provided to them by City staff. If the customer is not willing to wear a mask, a virtual meeting may be offered as an alternative. In no event shall a City employee be required to meet with a customer in-person if that customer refuses to wear a mask. The provisions herein shall not apply in all cases, including but not limited to, the provision of emergency response.

Phase Four

At the end of the pandemic situation, upon the Mayor's directive, Phase Four will be implemented.

In this phase most City facilities will return to pre-COVID-19 business hours and operations. This final phase will see the majority of City operations resume and the public will be permitted to re-enter open facilities.

The required use of PPE by City employees will be phased out in accordance with applicable CDC guidelines.

City Council, Intergovernmental and Board and Commission meetings will occur on the regular schedule. New protocols and provisions related to remote meetings and working from home may be explored on an ongoing basis in the pursuit of efficiency and productivity.

The City will continue to monitor conditions and take steps it deems necessary to mitigate the risk of COVID-19 exposure and spread within City facilities.

Monitoring Criteria

Downward trajectory of the number of cases, hospitalizations and deaths over four or more weeks. During this same timeframe, the community members, business owners and visiting public have demonstrated the ability to follow CDC guidelines such as physical distancing, wearing masks when in close spaces and personal hygiene to help prevent serious illness and death. Healthcare facilities must have capacity to care for those who are seriously ill and the ability to provide testing, monitoring and contact tracing.

CDC Guidelines

These guidelines should be used in the first three phases of the re-entry plan and should be posted in all City facilities in building entrances and employee areas.

How to Safely Wear and Take Off a Cloth Face Covering

Accessible: <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/diy-cloth-face-coverings.html>

WEAR YOUR FACE COVERING CORRECTLY

- Wash your hands before putting on your face covering
- Put it over your nose and mouth and secure it under your chin
- Try to fit it snugly against the sides of your face
- Make sure you can breathe easily
- Do not place a mask on a child younger than 2

USE THE FACE COVERING TO PROTECT OTHERS

- Wear a face covering to protect others in case you're infected but don't have symptoms
- Keep the covering on your face the entire time you're in public
- Don't put the covering around your neck or up on your forehead
- Don't touch the face covering, and, if you do, clean your hands

FOLLOW EVERYDAY HEALTH HABITS

- Stay at least 6 feet away from others
- Avoid contact with people who are sick
- Wash your hands often, with soap and water, for at least 20 seconds each time
- Use hand sanitizer if soap and water are not available

TAKE OFF YOUR CLOTH FACE COVERING CAREFULLY, WHEN YOU'RE HOME

- Untie the strings behind your head or stretch the ear loops
- Handle only by the ear loops or ties
- Fold outside corners together
- Place covering in the washing machine
- Wash your hands with soap and water

Cloth face coverings are not surgical masks or N-95 respirators, both of which should be saved for health care workers and other medical first responders.

For instructions on making a cloth face covering, see: [cdc.gov/coronavirus](https://www.cdc.gov/coronavirus)

Stop the Spread of Germs

Help prevent the spread of respiratory diseases like COVID-19.

[cdc.gov/coronavirus](https://www.cdc.gov/coronavirus)

3/10/21 8:11:00 AM

Employee Safety Protocols and Resources

Common Areas & Shared Devices

- As more employees are returning to work, we discourage staff from using vending machines, push button drinking fountains, breakrooms, and other shared devices such as refrigerators and microwaves. These devices are more difficult to keep clean and avoid the spread of germs to ensure they are safe for all. We are encouraging employees to pack in and pack out all necessary food and drink without using these devices during the first three phases of this plan.

Social distancing

- COVID-19 is a respiratory virus that is mainly spread through droplets created when a person who is infected coughs, sneezes, or talks. You can protect yourself by maintaining social distance (at least 6 feet) from others.
- Staff are encouraged to continue remote meetings or phone calls with co-workers and customers as much as possible.

Wearing a mask in all public places

- Wear a mask when you are in a public area, outside of your office, in a meeting with others, in a vehicle with others, and when in contact with the public. Employees do not have to wear a mask when working alone in their office or are able to be six feet or further from one another, working in a Fire station (unless required due to number of individuals being quarantined), driving alone in a City vehicle, or outside and adhering to social distancing guidelines. Employees who are unable to wear a mask, or whose essential job duties are impeded by the wearing of a mask, should speak to their supervisor and Human Resources about available accommodations.
- Have a different mask for each day of the week. After use, place in a brown paper bag for at least 24 hours (this will allow any contaminants to die off prior to wearing again the following week).
- The City is providing staff with surgical or N-95 type masks. N-95 type masks have a higher level of protection than surgical masks, which have a higher level of protection than cloth masks.
- If you choose to wear your own cloth mask (not supplied by the City), it should be washed or decontaminated after each use.
- Wash your hands before and after putting on or taking off a mask. Don't touch your eyes.

Wearing eye protection/ face shields

- Safety glasses are provided by the City and suggested to be worn whenever you are outside of your office or in a group/public setting.
- Safety glasses should be cleaned and disinfected daily or after individual use.
- Face Shields may be provided to employees who have frequent face to face contact with the public when a protective barrier is not available. The face shields are to be worn over your safety glasses and mask.

Wearing gloves

- Disposable nitrile gloves are provided by the City and should be worn if you often have physical hand contact with the public or others, handle money, or handle equipment from the public or others during work.
- Be aware that while wearing gloves, you should not touch personal objects (pens, keyboards, etc.) or equipment prior to doffing and washing your hands as the virus could be on your gloves.
- Gloves are not recommended by the CDC if you are not in contact with the public. If you are not in contact with the public, the preferred method is washing or sanitizing your hands often. Consider having a wipe or paper towel in your hand when opening or grabbing handles in leu of wearing gloves.

Checking your temperature

- The employee is encouraged to check their temperature prior to arriving to work.
- Check your temperature if you feel any changes in your temperature or have cause for concern.
- Anyone with a temperature above 100 degrees should be sent home to self-assess.
- Please refer to the instruction sheet provided by the City to ensure you are taking your temperature accurately.

Practicing good personal hygiene

- Wash your hands often, especially after touching any frequently used item or surface like handrails, pens, or any handle.
- Use hand sanitizer if washing your hands is impractical.
- Avoid touching your face.
- Sneeze or cough with a mask on or into your elbow (if you are not wearing a mask).
- Assume everyone, including yourself, has the virus (symptomatic or not).

Disinfecting your area and equipment

- Wipe down any pens or equipment handled by others after each use.
- Disinfect your office space routinely throughout the day.
- Disinfect your keyboard, phone, coffee cup, desk, counter tops, mouse, door handle and switches before and after each day's use or as needed.
- Regularly clean personal or business cell phones based on the number of times they are being handled or used.
- Don't share laptops with others if possible.
- Wipe down your vehicle just like you would your office space.

Employee Training Resources

[Proper Handwashing to Prevent Germs](#)

[Donning and Doffing Gloves](#)

City Facility Closure

When would a City facility be closed:

- When a staff person or customer has tested positive in order to disinfect the building.
- When all trained personnel are quarantined and there is no staff available to open the facility.
- Closure may be limited to a certain area within the facility based on mapping of where the employee or customer had been located within the building.

City Facility Closure Message:

This City facility (or name area of the facility) has been temporarily closed in order to maintain a safe environment for all customers and employees. An individual who was in the building (or in this area) on (date) reported they tested positive and/or are experiencing COVID-like symptoms. The City has notified the local health authorities. This facility (or area) will be sanitized in accordance with Center for Disease Control (CDC) guidelines and will reopen on (day/date or later today at (time)).

Workplace Safety Checklist

Safety measures might include:

- Implementing employee health screening procedures.
- Developing an exposure-response plan that addresses:
 - Isolation, containment and contact tracking procedures.
 - Stay-at-home requirements.
 - Exposure communications to affected staff.
- Providing personal protective equipment (PPE) such as:
 - Masks, gloves, face shields, etc.
 - Personal hand sanitizer.
- Detailing cleaning procedures and procuring ongoing supplies.
- Establishing physical distancing measures within the workplace:
 - Staggered shifts and lunch/rest breaks.
 - Rotating weeks in the office and working remotely.
 - Moving workstations to increase separation distance.
 - Implementing one-way traffic patterns throughout workplace.
- Restricting business travel:
 - Start with essential travel only and define what that is.
 - Follow government guidance to ease restrictions over time.
- Defining customer and/or visitor contact protocols such as:
 - Directing customer traffic through workplace.
 - Limiting the number of customers in any area at one time.
 - No handshake greetings remain 6 feet apart.
 - Using video or telephone conferencing instead of in-person client meetings.
 - Providing contactless pickup and delivery of products.
- Understanding and complying with Occupational Safety and Health Administration (OSHA) record-keeping and reporting obligations:
 - Identify positions, if any, with the potential for occupational exposure to the coronavirus.
 - Review OSHA regulation 29 CFR § 1904 to determine work-relatedness of illnesses.

Exposure Procedures for Employees

When an employee reports exposure to COVID at work

- The employee will complete an Exposure Report Form and articulate how the exposure occurred at work (e.g., shook hands, spit on, in confined space together, etc.) and the Form will be sent to Risk Management.
- Risk Management will share information with HR.
- If the exposure was likely caused at work, then the City's response would depend on the extent of the exposure (e.g., not wearing PPE and they sneezed on me).
- Risk Management will evaluate the extent of the exposure to determine if testing or staying at home is appropriate. Employees may also choose to test regardless of exposure or suspected exposure.
- If the employee is recommended for testing based on extent of the exposure, the employee will be sent to the County Health Department for testing and will be reimbursed for any out-of-pocket expenses for testing.
- If it is suggested the employee remain home until testing is received based on the extent of the exposure, the employee will remain on Sick Industrial paid leave until the test results are received.

When an employee reports testing positive to COVID

- The employee will not report to work.
- The employee will contact Human Resources.
- Human Resources will notify the employee's supervisor.
- Human Resources will provide support to the Supervisor if a work group expresses concern about exposure given an employee report.
- The employee will work with their Supervisor, Risk Management and Human Resources prior to returning to work.
- The employee is eligible to use accrued leave during this time.
- If the employee has no leave available, the employee may request donated leave or leave without pay.

Site Specific Plans

The following site specific plans will be implemented in a multi-tiered approach pursuant to Phase 3 of the City’s Re-entry Plan. These plans will begin to be implemented only after the City moves into Phase 3. The site specific plans may be updated as necessary to respond to business needs and environmental conditions. Facilities may move back to previous tiers in order to increase mitigation efforts to maintain safety for all patrons and staff. Any updated information will be included on the City’s website under COVID-19.

Library Plans
